

Free trial

Affordable pricing

Our approach to pricing is simple; to make email security affordable

Our pay per user price structure is designed with every budget in mind and it's free to try for the first 30 days.

If you become a subscriber at the end of the free trial there's no minimum term commitment or contract to sign. On the other hand, if you don't want the service just return the Secure-mail hub to us and we won't charge you a penny.

It's easy to calculate your costs and discount level

The price you pay for the service starts at £10 per user per month and is based on pricing bands. So for the first 5 users you pay £10 per user per month, for the next 5 users you pay £8 per user per month and so on. For more details and pricing options go to www.securecoms.com/pricing or call us on 0800 324 7777.

On top of this, for each new subscriber you successfully introduce we'll give you a one off credit equivalent to the new subscriber's first month's fee.

Alternatively, if you want to invite your contacts to use the free software version, Secure-mail:lite, you can do that too.

We'll also keep your billing simple to manage and easy to access. Once you are a full subscriber, we'll provide you with quarterly billing up front.

Key features and benefits

- £10 or less per user per month
- 30 day free trial
- Discounts for more than 5 email users
- Credit for each new subscriber referred
- Nothing to sign, no commitment or notice periods
- Subscribers can invite users to the free software version, Secure-mail:lite*

Pricing and discounts

How many users**	Price per month
First 5 users	£10.00 for each user
Next 5 users (6 - 10)	£8.00 for each user
Next 10 users (11 - 20)	£6.00 for each user
Next 30 users (21 - 50)	£4.00 for each user
Next 50 users (51 - 100)	£2.00 for each user
Each user over 100	£1.00 for each user

*The free service, Secure-mail:lite, enables the user to manually decrypt and encrypt emails from other secure-mail users. The subscribed service, Secure-mail, does this automatically and seamlessly.

**An email user is someone who in any one month sends or receives external email - you don't pay for anyone who only sends email internally.
